

Take a field trip into the world of art theft!

A field trip to the local art museum with Mittens's rambunctious nieces takes an unexpected turn when a priceless Monet painting is stolen! With their reputations on the line, the museum leadership desperately turns to Mittens and Alex for help.

Will the detectives see past the deception around them to discern friend from foe? Could this be another crime organized by the mysterious Ruffled Feathers? Most importantly, can the museum survive the antics of the crazy Kastle kittens?

Collar Cases is a page-turning mystery. Mittens Meow and Alex Digger are journalists united by friendship and sleuthing. A great family read-aloud to engage kids with biblical truth. A must-read series for kids and families.
